Data Science

Profile

As a Computer Science student I'm headind towards the field of Data Science.

Over the years, I developed skills that let me manage, collect, process and visualise data to have a better understanding and get insights.

To achieve these I use tools such as PostgreSQL, Excel, Power Bi or Python

Born in 2002
French
Driving licence

Experiences

2023
1 year

Co-op Data Analyst - Customer Services
Trixell Thales Group - Moirans (France)
- Project management : Sales forecasting, After-Sales, Production
- Process large and sensible datasets
- Data processing and Python programming
- Create and publish Power Bi and Grafana dashboards

2023
3 months

Internship in Power Bi - Pricing
GFMS - Meyrin (Suisse)
- Process large and sensible datasets
- Data processing and Python programming
- Create a star model for data analysis
- Create Power Bi dashboards

2023
1 month

College 2nd year project
USMB - Annecy (France)
- Create a database architecture
- Process large datasets using Python
- Create Power Bi dashboards
- Teamwork in a short period (group of 4)

2022
1 month

Office assistant - CS Supply Chain
GFMS - Meyrin (Suisse)

Education

2025

BUT Informatique - 3rd year
Administration, management and exploration of data
Université Savoie Mont Blanc - Annecy (France)

2024

Co-op Engineer
1st year of Engineering
Grenoble INP ENSIMAG - Grenoble (France)

2023

BUT Informatique - 2nd year
Administration, management and exploration of data
Université Savoie Mont Blanc - Annecy (France)

2020

Baccalauréat Science de l'Ingénieur
Computer Science speciality
Lycée Saint-Exupéry - Valserhône (France)

Skills

Developer		Corporate		Soft skills
Python	●●●●●	Excel	●●●●●	• Teamwork
PowerBI	●●●●●	Power Point	●●●●●	• Communication
SQL	●●●●○	Word	●●●●●	• Adaptability
PowerAMC	●●●○○	Canva	●●●○○	• Leadership
Linux, Bash	●●●○○	SAP	●●○●○	• Attention to detail
